DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 4-8, 10, 12-22 are rejected under 35 U.S.C. 102(b) as being anticipated by German Patent G 86 04 004.9 (translation copy)

German Patent G 86 04 004.9 teaches all the limitations of the above claims including at least two flooring panels (2) with a top surface, bottom surface, middle substrate, grooves (6) extending the length of the panel and intersecting with groove on other side, channel (9) on bottom surface, parallel to groove (see Figure 3), geometry of a square, and connector (8) extending the length of the panel and traverse (see Figure 3).

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 3635

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-25 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 63-93 of copending Application No. 09/436317. Although the conflicting claims are not identical, they are not patentably distinct from each other because the copending application 09/436317 teaches all the limitations of the claims including the floorboards, connector, grooves, and the method of assembling the floor assembly .

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

5. Applicant's arguments with respect to claims 1-25 have been considered but are moot in view of the new ground(s) of rejection.
